

20 February 1953

MEMORANDUM FOR: Chiefs, PP, DDP/Admin

FROM: Executive Officer, SR 25X1A6a

SUBJECT: Request for Augmented SR T/O, [REDACTED]

1. The attached Table of Organization represents the establishment that will be required in the field [REDACTED] to accomplish the objectives already set for SR in the Far East. The number of positions is consonant with projected activities, is based on a two-year forecast, and has the verbal and cabled concurrence of the Senior Representative, [REDACTED] (See attached message copy.)

25X1A6a

2. The T/O has already been coordinated with the Chiefs of FI, PM, and PP, who have concurred in the proposed table. The staffing pattern for this T/O will utilize as much as possible personnel already in the Agency, who may be subject to transfer from other foreign stations or other branches within this Division.

~~3. Experience has shown that the uniqueness of SR operations requires detailed logistic preparation and administrative support. For this reason, the administrative support positions are requested in order to fulfill the obligations that cannot now be met fully because the host division's stations overseas are already burdened with the press of their own operations.~~

4. For the reasons outlined above, it is considered essential that SR be authorized more personnel in [REDACTED] than it now has available.
